

SKY  MIND

Better Decisions
for Pharma

Taking control of your supply chain

Across the global supply chain, businesses are facing unprecedented challenges. The cost of shipments has increased, products have become more sensitive, and supply chains have grown more complex, more unpredictable, and burdened by inefficiencies. The pharma industry needs to look at Scope 3 to reach net zero.

Introducing **SkyMind** — the solution that adds intelligence to your supply chain.

SkyMind provides **visibility** across all stakeholders and enables collaboration, maximizing **cost efficiency** and **minimizing risk** (predictive analytics) while implementing your **CO₂ reduction** goals.

SkyMind Decarbonize helps you to **reduce your CO₂ emissions** and work toward **net zero**.

Empower your team to make better decisions with SkyMind.
